

WIRING INSTRUCTIONS

WARNING

1. This is a 12 volt d.c. System ONLY
2. Connect red (+) wire to Positive
3. Connect black (-) wire to Negative
4. Plug in all wiring as per diagram
5. Connect reverse camera to Video 2 Only.

DO NOT CONNECT 12 VOLT SUPPLY UNTIL MONITOR AND CAMERA ARE CONNECTED

All Polaris Rear vision systems are a driver assistance device. They are not a substitute for driver responsibility when reversing a vehicle.

OPTIONAL WIRING INSTRUCTIONS

1. Power hookup from reverse light. This enables the unit to operate automatically when reverse gear is selected.
2. Power hookup from accessory power. This allows continuous use, for people who tow a caravan etc
3. Reverse light and accessory power hookup with a changeover switch. This allows user to have either automatic or continuous use via a dash mounted switch
4. 24 - 12 VOLT Control box. This is for 24 volt systems to convert the voltage to 12 volt. (Optional Extra)

Please turn over for optional wiring diagrams
